EVALUATION FORM FOR OUTLINE/ORAL PRESENTATION

Name of Student(s): **CHESCA MAE M. TABLARIN**
CJ I. CANARIA
CHRIS JUNE B. SANIDAD
JON SJACOB ROBIN F. SANIDAD

Date: **05/20/2026**

Thesis Title: **SCHOLARLINK: A Web-based Scholarship Management System for Undergraduates of Tarlac Agricultural University**

AREA	COMMENTS/SUGGESTIONS/REVISIONS
Title of Research Study	☐ Accepted
Introduction/ Background Information	☐ Accepted
Statement of the Problems/ Objectives/ Hypothesis	☐ Accepted
Review of Literatures and Studies	☐ Accepted
Methods and Procedures - Research Design - Data Gathering Instruments - Statistical Tool/s - Others	☐ IPO Improve the labels of the INPUTS/OUTPUTS. Should be Data or Information ☐ IPO Processes should be labeled as verb + object. ☐ IPO should be per USER Perspective. ☐ IPO per process (Application, Scholarship Launching, Application Evaluation, Report Generation) ☐ Do not include non-tangible processes (i.e. processes without document output, for example: Log-In/Out) ○
Results and Discussions	N/A
Summary and Recommendation	N/A
Literature Cited	☐ APA Format (7th edition); ☐ Hanging indented; ☐ At least 25 authors
Appendix/ces	N/A
Other REMARKS	☐ Enforce a back-up and restore of the data (system or user triggered); ☐ Include audit logs. ☐ During registration, the Student ID can be pictured, uploaded and the information will be parsed by the system. ☐ Include a feature to validate the authenticity of the documents that the student applicant is authentic. ☐ Include a feature to validate whether the applicant is qualified based on the contents (e.g. GWA, etc) of the documents that the student applicant uploaded. ☐ User account should be started/linked with Gmail/email account validation.

COLLEGE OF ENGINEERING AND TECHNOLOGY

<i>(Indicate also here if passed or due for another presentation)</i>	☐ Include an AI Agent or BOT Assistant, then generate suggestions and steps to proceed to application steps with links to pages in your system or transfer to system admin or owners. ☐ Reword “replace” to “edit” in requirement submission ☐ Improve the display or presentation of items (e.g. scholarships, etc). Minimize scrolling down). Try, show by chosen number (e.g. by 5, 10, or higher) ☐ Ensure sample data is realist (re. scholarships) ☐ Filters should function as search bars also, should be predictive ☐ In adding a scholarship, it should indicate whether the scholarship is government or private scholarship ☐ Admin notification that scholarship is for deactivation (based on MOA); full based on number of slots made available; ☒ The system should limit or filter whether the student already has an existing scholarship because no duplicate scholarships is allowed (both government grant; both private grants, govt to private or if the scholarship does not allow dual scholarships) ☐ Include a landing page for student applicants, they can view the available scholarship grants, then log in to apply. ☐ Include a dynamic feature to design, edit and change or update the application forms of the different Scholarship Grants. ☐ External Evaluator Account should be per Scholarship Grantor., can only evaluate and only see the applications to his specific scholarship grant. ☐ Launching a Scholarship: Amount to Indicate should be indicated with period of release (e.g. by semester, by year, by program completion) ☐ Improve the labelling of your pages or forms ☐ Reports (follow format required by sponsor) ○ Scholars per Scholarship ○ Scholarships Available ○ Scholarship Applicants/Application ○ All reports required to the OSSD by external and internal agencies (by a period of time e.g. monthly, quarterly, semestral, annual) For Revision subject to Advisory Committee’s Approval before end-user evaluation/experiment/system testing.
